Allowable Subject Matter

1. Claim 1 is allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a method for a laser scanning microscope wherein the laser is modulated based upon patterns stored and read and wherein the modulation control patterns are changed at an arbitrary timing as set forth in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Webb et al and Jovin et al teach laser scanning microscopes which use scanning patterns.
